no date 17.473 (director of expedition) *Discoveries relating to prehistoric man by the Doheny Scientific Expedition in the Hava Supai Canyon, northern Arizona : with supplement.* San Francisco: Sunset Press, 38 [39] pp. [1927?] [Cover title is cited.] [Title-page: *The Doheny Scientific Expedition to the Hava Supai Canyon, northern Arizona, October and November, 1924. Compliments of Oakland,* [*sic*] *Museum, Oakland, California. Sponsor and patron, E. L. Doheny. Director of Expedition, Samuel Hubbard . . . : Scientist, Charles W. Gilmore . . . : Photographer, Robert L. Carson : Sculptor, Joseph F. Roop : Assistants, Fred V. Shaw, Arthur Metszer : Guide and Packer, Bud Clawson.*] [This printing also reproduces (pp. 1-20) the "little pamphlet" of "two years" earlier (Hubbard, no date, item no. 16.217), to which is appended the "Supplement" (pp. 21-39). The Supplement is essentially a creationist tract against traditional teachings of evolution, favoring the co-existence of humans and dinosaurs; it supports the idea of prehistoric migrations into southwestern America both by Old World animals (via trans-Atlantic land bridge) and by humans, in a "Mongol Invasion of America". The Supplement mentions the Grand Canyon (Havasu Canyon) only on pp. 36-37, and p. 39 is a photograph in Havasu Canyon, "The abutment of a white sandstone cliff in the Hava Supai Canyon, bearing a striking resemblance to the Parthenon on the Acropolis at Athens. Figure suggestion Sphinx on left.", with lines from the Samuel Taylor Coleridge verse, "The Temple of Kubla Khan".] [Havasupai, Havasu Canyon.]

[In addition to sections on bean types, includes separate sections on Hopi, Mojave, Havasupai, and Papago and Pima Indians.]

Kelsey, Michael R.

2021	17.3685	*Technical slot canyon guide to the Colorado Plateau.* Provo, Utah: Kelsey Publishing, updated 2nd ed., 368 pp. [See "Deer Creek Narrows, Grand Canyon, Arizona" (pp. 340-341) and "Lower Water Holes Canyon, Navajo Nation, Arizona" (pp. 343-344). This was written just prior to the National Park Service's closure of the Deer Creek narrows to casual visitation, in deference to Native American cultural and spiritual values. Kelsey does mention, briefly (pp. 339, 340), that closure might be pending, though assumes it is a Park Service move to protect river runners from climbers' equipment that might wash down through the falls.]

Kendall, Martha B.

1975	17.2224	A preliminary survey of Upland Yuman dialects. *Anthropological Linguistics*, 17(3) (March): 89-101. [". . . Yavapai, Havasupai, and Hualapai dialects are discussed and compared for auxiliaries, verb markers, possessives, and negatives."]
1977	17.2229	The Upland Yuman numeral system. *In:* Redden, James E. (ed.), Proceedings of the 1976 Hokan-Yuman Languages Workshop : held at University of California, San Diego, June 21-23, 1976. *Southern Illinois University at Carbondale, University Museum Studies*, (11): 17-28. [Cover of volume indicates series as *Research Records* (11).]
1980	17.1241	Exegesis and translation: Northern Yuman names as texts. *Journal of Anthropological Research*, 36(3) (Autumn): 261-273.

Kennedy, Debra J.

2012	17.2469	Evaluating Hualapai traditional cultural properties in the Grand Canyon [ABSTRACT]. *In: Aurora University : the 5th Annual Teaching and Research Symposium : Friday, February 17th, 2012.* [Aurora, Illinois]: Aurora University, p. 6.

Kent, Kate Peck

1976	17.1062	Pueblo and Navajo weaving traditions and the western world. *In:* Graburn, Nelson H. H. (ed.), *Ethnic and tourist arts : cultural expressions from the Fourth World.* Berkeley, Los Angeles, and London: University of California Press, pp. 85-101. [See p. 93, Hopi House weavers; "Hopi weavers employed by the Harvey House at the Grand Canyon . . . ." [*sic*]]

Kerner, I.

[Walters, Joanna]

Special International Bibliographical Exhibit Relating to the Havasupai

Inasmuch as the Havasupai blood-use case has gained global attention with respect to the rights of Indigenous peoples and of individuals, as is testified by numerous citations in this part of the bibliography, so too have the Havasupai gained recognition in their struggle to assert and maintain their spiritual and cultural rights to the lands on which they live and to the natural resources on those lands. This has been especially evident in the late 20th and into the 21st centuries with threats engendered by uranium mining and real estate development that is taking place or is planned near the Havasupai Indian Reservation; these nearby lands are outside of the legislatively defined reservation but are a part of Havasupai traditional territory. Among the threats are impacts to the environment, not the least of which is the potential to pollute and to divert the groundwaters so important to the Havasupai in Havasu Canyon. The threats can impact spiritual needs, which also can also adversely impact the economic livelihood of the tribe.

Although this bibliography omits newspaper and website sources that do not provide supporting information for a cited publication (as explained in the introductory matter to this volume), the following series of citations is introduced here as one example of the profound reach that the Havasupai plight has had, which may result in more far-reaching publications from around the world. The tribe's activities in response to its concerns are an example for other Indigenous peoples, who have comparable and unique issues alike, which may call for political, legal and moral activism by themselves or on their behalf.

This special bibliographical exhibit cites a single, feature-length article from *The Guardian*, a London-based daily newspaper, which has been posted to the website of the globally involved organization, World BEYOND War (https://worldbeyondwar.org/who/). There the organization also offers user-selected, automated translations of the article in dozens of non-English languages. The 13 non-English citations listed with the English original, below, have been selected from among these offerings because they represent the organization's outreach to specific *Indigenous* peoples and their supporters. The citations further demonstrate the growing global awareness for cultural rights in general, *in the process also bringing attention back to the Havasupai of Grand Canyon through the words of other Indigenous peoples*. The user-selected translations further allow Indigenous groups to immediately obtain a pertinent translation of the original article that is in English, a demonstration of how documentary resources are becoming more efficiently far-reaching in the web age.

The citations have been standardized for this bibliography in order for each to stand alone. Web links in this special exhibit were accessed in November 2019, and again in November 2021.

Walters, Joanna

2017 17.2506 In the Grand Canyon, uranium mining threatens a tribe's survival; the Havasupai are attempting to fight back against the operation of a uranium mine that they say could contaminate their sole water source. PART 17

NATIVE AMERICANS IN THE GRAND CANYON REGION

APPENDIX

The Supai Weekly News

AND

The Supai News

(1957–1959)

APPENDIX : *The Supai Weekly News* and *The Supai News* (1957–1959)

THIS APPENDIX contains citations taken from the scarce, occasional, mimeographed, missionary-toned serial produced at Supai, Arizona, at least during 1957 through 1959. Holdings are noted for it in the "Arizona Memory Project" of the Arizona State Library (https://azmemory.azlibrary.gov/digital/collection/supaiweekly), which serve also as the digital copies available through the "Chronicling America" website of the Library of Congress (https://chroniclingamerica.loc.gov/lccn/sn95060774/).

As outlined by the Arizona Memory Project [square brackets are a part of the quotation, but *bracketed notes in italics are added here*]:

> The *Supai Weekly News* appeared in the 1950s [*there is no indication when the first issue appeared*], published by Marian [*L.*] Collins, whose husband, Arthur "Vic" Collins, was the Bureau of Indian Affairs agent to the Havasupai Indians starting in about 1952. Vic often administered insulin shots to community members with diabetes and handled tourism inquiries, according to a 1959 *Arizona Republic* [LCCN: sn 83045137] article. As reported in the *Verde Independent* [LCCN: sn 94050876], Marian rotated roles as a nurse, mediator, and postmaster in Supai. Marian also taught at the Indian School in Havasu Canyon, according to a 1953 article in the *Arizona Republic*.
>
> The *Supai Weekly News* was geared toward the Havasupai community. Each issue [*i.e., many issues*] featured a list of birthdays that week [*including dates*], as well as a weather report that detailed the daily temperatures from the week prior [*the entire record is nearly contiguous*]. The publication included important news such as public health updates, the upcoming visits of a relocation officer, and notices of tribal council meetings and elections. Though only two or three pages in length [*among the 88 issues seen, some were one page, a few were four pages, and two were five pages*], most issues were packed with listings of personal updates from community members. These updates often highlighted the little things in life, such as someone going sledding or someone cooking a steak dinner. These snippets of news sometimes answered questions, such as one in the June 26, 1957 issue: "All the shouting and screaming every afternoon is coming from the 'old swimming hole' where all the folks get away from the heat." The paper also sometimes took on a more poetic tone, such as in one 1959 issue: "When we go to bed at night the Valley is bright with the beautiful moonlight. When we get up early in the morning the Canyon is still light from the moon's beams. It is so pretty it makes some folks want to write poetry about it."
>
> The paper also featured religious news about the Supai Bible Mission, such as when different services were being held and the names of missionaries. The paper frequently encouraged readers to attend church services, and most issues included a bible verse. [*Various other items are moral and inspirational messages.*]
>
> Though initially a weekly publication, by 1959, the paper was published more sporadically and [*beginning November 28, 1958*] dropped "Weekly" from its name. By 1960, the Collinses moved to Cottonwood, Arizona, and the *Supai News* ceased.

Published in such a remote location, this serial is understandably scarce, although there is evidence in a few of the items that it was also mailed to recipients in the "outside world". As shown in the calendars on the *following two pages*, the issues preserved by these two institu-

▼ The calendars for 1957, 1958 and 1959 are those presented on the Library of Congress' "Chronicling America" website, indicating the 88 available issues for *The Supai Weekly News* (to September 17, 1958) and *The Supai News* (from November 28, 1958). Dates in **bold** are issues that are available online. The digital copies, though, are those that were imaged for the Arizona State Library's "Arizona Memory Project". The digital copies may be accessed from either source (see previous page for links).

tions are weekly to occasional, although it is not clear from these holdings that the more significant hiatuses are due to missing issues or that there really was a pause in production—although the issues are dated, they are not enumerated by volume or issue numbers. Even though the Library of Congress calendars itemize issues through December 1959, the LOC catalog record erroneous indicates "195?–1958" and "Ceased in 1958"; the calendar, however, is correct. All 88 indicated issues are available through either the Arizona or LOC website.

The hiatus in July 1957 was explained in the July 19 issue: "Mrs. Collins finally got a better typewriter and she is very thankful! The Supai News has not been published for over two weeks as the typewriter was no good and Supai was too busy a place to take time out for the paper. Things are now back in a normal state again." Other hiatuses, which are noted in the bibliographical litings below, are not explained, which could represent missing issues. Hiatuses are indicated for long periods, of course, but also for shorter intervals for which, notably, the weather records do not "catch up" for that interval.

The "Official Weather Report" ("Official Altitude—3,205 feet above sea level") that appears in almost every issue was compiled variously by Arthur Collins (signed "A.V.C.", later as "avc") and Marian Collins (signed "M.L.C." or "mlc"), with later reports signed only "c". Each report lists high and low temperatures and precipitation amount for each day; the records are virtually complete, except for times when the Collinses were not present.

Because of the unusual nature and scarcity of this serial, the opportunity is taken here in THE GRAND CANON to subjectively record citeable items in one place (this Appendix). A chronological presentation is maintained here due to the fact that the entire production was under the editorship of Marian L. Collins, with no by-lines. A few items by others, in the form of signed letters to recipients in Supai, are cited much as in the fashion of the citations from *The New York Times* (Part 3 of this bibliography); authors' names are appended in **bold**. A few items have also been cited in pertinent other parts of this bibliography; for example, death notices, the report of an earthquake, and so on.

Each issue is rich in personal names—Havasupai, government officials, visitors, and tourists. For example, the first of the 88 issues here examined (January 2, 1957), a two-page issue, contains 35 names (plus "Lucky", the Post Office dog). The lists of people visiting Supai, including tourists, can be rather lengthy for the size of this serial, particularly during the traditional summer tourist season. Often, the lists are segregated by those who are staying at the "Old Lodge" or "New Lodge", camping, or staying at Wampler Camp. Every issue contains a remarkable list of comings and goings of Havasupai people, too, whether going "up" on visits, shopping trips, doctor's visits, rounding up horses, and so on. Arrivals of Havasupai are noted, too, as are even phone calls from people "up top".

Most names that appear in the *News* show up in brief, folksy items that make up the preponderant part of this entire serial. Three examples, at random, are as follows (these are the entire entries). January 23, 1957: "Willie Spoonhead, Andrew Manakta, and Moby Dick Hamidreek have been fencing in their garden pits."; "Lucy Grounds curls her hair on curlers she makes from coffee cans. When she opens a can of coffee she saves the strips and cuts them into short pieces to wind her hair on. She sure has some pretty curls." August 14, 1957: "The Reed Watahomigies have a nice new radio."

Only principal items are cited here; usually those indicated by section or individual titles. A few miscellaneous citations are from among the informal notes in passing, if they convey information that is especially noteworthy for other parts of this bibliography; for example, notes of cultural interest.

The Supai Weekly News **(Collins, Marian L., ED.)**

1957

1957 17.2694 (January 2) New Year's party. (p. 1)

1957 17.2695 (January 2) Public health. (p. 1)

1958 17.2978 (August 6) New boy. (p. 1) [Boy born to Nancy Clara; name not known as yet.]

1958 17.2979 (August 6) Law and order. (p. 2) [Reminders of Law and Order Code adopted February 4, 1957, and on marriages at Supai.]

1958 17.2980 (August 6) Goodby [*sic*], Carma Lee and Virginia. (p.2) ["Mrs. Harold Smithson and her daughter, Virginia, form Salt Lake City, Utah will be leaving us tomorrow. We shall be very lonesome for them and hope they will come back soon to see all of us. They have been here three months and all of us had enjoyed having them for neighbors!" (ENTIRE ITEM)]

1958 17.2981 (August 16) Public health. (p. 1)

1958 17.2982 (August 16) Tribal Council meeting. (p. 1) [Reports of meetings of August 9 and 16.]

1958 17.2983 (August 16) Official weather report. (p. 1) [August 6-15, signed "mlc".]

1958 17.2984 (August 16) Lights. (p. 1) [Light Plant working again.]

1958 17.2985 (August 16) [Carma Lee Smithson.] (p. 2) ["Mrs. Harold Smithson (Carma Lee), little Virginia, Mr. Wayne Perry and son, Brent, left Supai August 7th. Mr. Perry is the brother of Carma Lee and he came to help her pack and get gack home to Salt Lake City. We are all anxious to hear from them and know how their trip was." (ENTIRE ITEM)]

1958 17.2986 (August 23) Helicopter here Thursday P. M. (p. 1) ["Mrs. Stanley Manakaja got her second ride in one of the Luke Field helicopters last Thursday afternoon. She was taken to the Grand Canyon and then put into a big airplane and flown on down to the Phoenix Indian Hospital. She has been ill for many days and was unable to ride a horse out of Supai. We hope she will be well soon! And we are thankful for the great big 'copter! Thank you again, Luke Field Air Base!" (ENTIRE ITEM)]

1958 17.2987 (August 23) Official weather report. (p. 1) [August 16-22, signed "mlc".]

1958 17.2988 (August 23) Another new Supai. (p. 1) [Patricia Ann Manakaja born to Mr. and Mrs. Andrew Manakaja.]

1958 17.2989 (August 23) Telephone still out. (p. 1) ["Mr. Collins drove over to Pasture Wash to put in new fuses but the phone trouble is between Supai and Pasture Wash. So, he and somebody else will have to ride the line and probably chop down a lot of trees, repair broken wires and do other things." (ENTIRE ITEM)]

1958 17.2990 (August 23) [Tourist business without telephone.] (p. 2) ["Tourist business is good these days even though the phone doesn't work. People just walk down or else come to Hilltop and send word down for horses. It is fun to not know who is coming down the Trail until they get here." (ENTIRE ITEM)]

The Supai Weekly News **(Collins, Marian L., ED.)**

1958 17.2991 (August 23) Radio-Telephone fixed. (p. 2) ["When Alberta Manakaja got real sick Stanley, David Jones, and Mr. Collins put up the aerial and got things ready to broadcast for help. Wednesday evening about 5:30 p.m. Stanley climbed rapidly up on top of the Red Wall and pulled the aerial wire up. It started to thunder, lightning, and rain and he hurried back down and arrived in 30 minutes wet and dripping. He sure made that trip fast--about one hour up and down and was plenty good! Hooray for him. Thursday morning a message was sent for help and about 2 P. M. here comes the helicopter! This morning Cecil Dick and Mr. Collins went back up on the Red Wall and pulled the wire tighter so it would be higher. Mr. Carter stayed below to watch and work the Radio-Telephone." (ENTIRE ITEM)]

One-week hiatus

1958 17.2992 (September 6) School children out. (p. 1) [Students depart for Theodore Roosevelt Boarding School and Stewart, Nevada. Students named. Various other individual school student notices appear in this issue.]

1958 17.2993 (September 6) Official weather report. (p. 1) [August 27-29, September 1-5; signed "mlc".]

1958 17.2994 (September 6) [Havasu Creek flood.] (p. 2) ["On August 28th the River came up in a hurry and the water was very black. We think one of the dams broke up above. Four hikers were nearly caught in this flash flood and they had to get up on the Red Wall to get out of the Canyon. The two children in the party had to be dragged to a high bank and just barely escapted with their lives. Ham Grounds pulled them up out of the water; they were on a horse." (ENTIRE ITEM)]

1958 17.2995 (September 10) Another new boy for Supai. (p. 1) [Murphy Keith Jones born to Mr. and Mrs. Hardy Jones.]

1958 17.2996 (September 10) Official weather report. (p. 1) [September 6-9, signed "mlc".]

1958 17.2997 (September 10) [Judges.] (p. 2) ["Mr. Harlow Uqualla has been chosen as the temporary Judge of the Havasupai Court, and Virginia S. Hanna has been chosen the Associate Judge until the permanent Judge is elected by the Tribe in October."]

1958 17.3004 (September 17) Horse buyers again. (p. 1)

1958 17.3005 (September 17) Supai Bible Mission notes. (p. 2)

Ten-week hiatus

The Supai News [name change] **Collins, Marian L. (ED.)**
Hereafter the *News* is published more occasionally. Hiatuses of only greater than about three weeks are noted.

1958 17.3006 (November 28) Relocation men here. (p. 1) [Eugene B. Wilson from Pima Agency, Sacaton, Arizona, and Alfred C. Garcia from San Carlos, Arizona.]

1958 17.3007 (November 28) [Census.] (p. 1) ["Mr. Karl Johnson, Relocation Aid, Parker, took a census of the Supais at the Grand Canon, Peach Springs, and Kingman." (ENTIRE ITEM)]

1958 17.3008 (November 28) [Overflight.] (p. 1) ["Tuesday afternoon another Jet 'guzzed' Supai and scared us all again. People hollered and ran and some hid." (ENTIRE ITEM)]

1958 17.3009 (November 28) Official weather report. (p. 1) [November 21-27, signed "mlc".]

1958 17.3010 (November 28) Supai Bible Mission notes. (p. 2)

1958 17.3011 (December 3) Death. (p. 1) [Arthur Walker of Peach Springs.]

1958 17.3012 (December 3) Official weather report (p. 1) [November 28-December 2, not signed.]

1958 17.3013 (December 10) School letter. (p. 1) [From student "J.W." to "Mother".]

1958 17.3014 (December 10) Postal inspector here. (p. 1) ["Post Office Inspector Velthoen, of Flagstaff, Arizona rode to Supai last Thursday to inspect the local Post Office. He does this once a year. Floyd Putesoy was his guide. Inspector V. had a fast ride on Floy's mule, Ray." (ENTIRE ITEM)]

1958 17.3015 (December 10) Official weather report. (p. 1) [December 5-9, signed "mlc".]

1958 17.3016 (December 10) [A "census".] (p. 2) ["In making up a Christmas list we found that we have about 21 girls and 17 boys in the Valley. Someone then asked how many adults we had and we counted about 50 men and 40 women." (ENTIRE ITEM)]

1958 17.3017 (December 10) Supai Bible Mission notes. p. 2)

1958 17.3018 (December 10) Airplane over low. (p. 2) ["Last Friday about noon a United States Air Force bomber (4 motors) flew low over Supai. It did this four times and once it dropped a little parachute to Mr. Collins with a message. The 'chute was made out of a piece of old cloth, some wire, and a spark plug. The note was wrapped around the plug. Stanley and Albert W. saw the parachute drop but no one else did and no one could find it. Sunday, after Church, here came Virginia, Maggie, and Velma with 'the thing that dropped'. Maggie had found it on Friday afternoon while on her way over to her parents' house. Lt. Cagle will be glad to know his note reached us alright. Thank

		you, Maggie, for finding the parachute. This plane didn't scare any of us as it came over so easy and didn't roar and shake the walls of the Canyon." (ENTIRE ITEM)]
1958	17.3019	(December 29) Sedona youngsters home. (p. 1) [Students home for Christmas; all are named.]
1958	17.3020	(December 29) Births. (p. 1) [Debra Lenore Paya born to Mr. and Ms. Frazier Paya, September 14 in Kingman. Girl born to Mr. and mrs. Dick Watahomigie; name not known as yet.]
1958	17.3021	(December 29) Official weather report. (p. 1) [December 11, 12, 14, 18, 22, 25-28, signed "mlc".]
1958	17.3022	(December 29) Public health news items. (p. 1)
1958	17.3023	(December 29) Christmas Eve party. (p. 2)
1958	17.3024	(December 29) Christmas dinner. (p. 2)
1958	17.3025	(December 29) Christmas dance. (p. 2)
1958	17.3026	(December 29) No parachute drop. (p. 2) ["There was no parachute drop after all as the Tribal Council met too late to give their approval. Some of the fellows at Williams Air Force Base wanted to drop gifts in here for Christmas for the United Indian Missions, Inc. Maybe next year." (ENTIRE ITEM)]
1958	17.3027	(December 29) Supai Bible Mission notes. (p. 3)

1959

1959	17.3028	(January 8) Another girl! (p. 1) [Phyllis Ann Jones born to Mr. and Mrs. David Jones.]
1959	17.3029	(January 8) New Year's Party. (p. 1)
1959	17.3030	(January 8) Fireworks. (p. 1)

1959 17.3194 (December 18) [Overflight.] (p. 2) ["An airplane just flew over Supai so low that we do not see how it ever got up out of the Canyon below the Village. It wasn't a Jet either." (ENTIRE ITEM)]

1959 17.3195 (December 18) Supai Bible Mission [notes]. (p. 2)

1959 17.3196 (December 18) [Flowers.] (p. 2) ["Even though we have been having ice a hollyhock is still blooming beside Mr. Collins' house." [and, separately] "Edith Putesoy says that when flowers bloom in December the old folks say there will be lots of snow."]

ENVIRONMENTAL, BIOLOGICAL AND GEOLOGICAL SCIENCES

18

PHYSICAL ENVIRONMENT OF THE GRAND CANYON AND THE SOUTHWEST REGION

Physical, chemical, and comparable aspects of land, water, and atmospheric environments of the Grand Canyon region; interdisciplinary research of the environment in the Grand Canyon region and the Colorado River corridor through the Grand Canyon; and atmospheric and climatological investigations relating to the Colorado River Basin or the American Southwest that embrace the Grand Canyon and the hydrographically defined Lower Colorado River Basin

GO TO VOLUME CONTENTS PAGE
GO TO BIBLIOGRAPHY TABLE OF CONTENTS

OVERVIEW. This part includes environmental studies that are not organismically specific and publications that address general environmental issues, including water-quality studies, atmospherics, climatology, and astronomy. Broadly based investigations embracing the Southwest are included here so as to accommodate the hydrographically defined Lower Colorado River Basin. Documents that are **Environmental Impact Statements**, and similar administrative and guidance documents, are included in **PART 13 (ADMINISTRATIVE AND MANAGEMENT ISSUES)** because they usually embrace multiple areas of administrative oversight, are not solely focused on ecological concerns as might be inferred from the title, and may offer a variety of management alternatives. **EXCEPTIONS** are those documents that are specifically biological in perspective, which are included in either Part 11/Section 1 (ENVIRONMENT, ECOLOGY AND BIOLOGY IN THE LOWER COLORADO RIVER REGION) or Part 19 (BIOLOGY AND ECOLOGY OF THE GRAND CANYON REGION) of this bibliography. Items that relate to astronomical observations and "dark sky" issues, and the science of astronomy generally, are included here in Part 18. Items that relate to the scientific study of ambient noise and the natural soundscape of Grand Canyon are included in Part 18; but items that relate specifically to non-environmental management issues of "noise" are relegated to Part 13, and items that relate specifically to sociological responses to these issues are consolidated with PART 14 (SOCIOLOGY, RECREATION, EDUCATION, ECONOMICS, AND RELATED SUBJECTS). Items relating to environmental responsibility particularly by government agencies, such as the use of hybrid electric vehicles, are included in Part 18.

Items relating to the hydrology of the Colorado River basin, and aspects of drought effects and forecasting, are listed in PART 12/SECTION 1 (WATER SUPPLY AND MANAGEMENT, etc.).

See the Appendix to Part 17 (*The Supai Weekly News* and *The Supai News*, 1957–1959), an informal serial produced by missionaries at Supai, Havasupai Indian Reservation). Most issues included an "Official Weather Report" ("Official Altitude—3,205 feet above sea level"). Each report listed the high and low temperatures and precipitation amount for each day; the records are virtually complete, except for times when the reporters were not present.

(***continued***)

RELATED MATERIAL

PART 2. GENERAL PUBLICATIONS for items pertaining to astronomical meetings and events held at Grand Canyon (for example, Grand Canyon Star Party) and similarly items that pertain to one-time plans to build a great observatory at Desert View

PART 3. *THE NEW YORK TIMES* for additional items that relate to this part of the bibliography

PART 11, SECTION 1. LOWER COLORADO RIVER—NATURAL HISTORY for items pertaining to natural history and physical environment in the lower Colorado River corridor from Lake Mead to the Colorado River delta, including matters that relate to human health concerns in this region

PART 13. ADMINISTRATIVE AND MANAGEMENT ISSUES for items relating to natural quiet in Grand Canyon that specifically address management issues, and also Environmental Impact Statements and similar administrative and guidance documents

PART 14. SOCIOLOGY, RECREATION, EDUCATION, ECONOMICS, AND RELATED SUBJECTS for items relating to natural quiet in Grand Canyon that specifically address human responses and perceptions of these issues

PART 15. HEALTH AND SAFETY for items on physical and chemical studies in the region that relate to human health concerns

PART 19. BIOLOGY AND ECOLOGY for items on chemical studies in the region that rely on the analysis of organisms

PART 21. GEOLOGY AND PALEONTOLOGY for physical and geological environmental issues, including geochemistry of ground waters as affected by geological conditions; also items relating to geomagnetism and studies of terrestrial gravity

[Volume: Proceedings of the Fourth Conference on Progress of the X-15 Research Airplane Program. Publication originally "Classified"; now Unclassified.] [See p. 88, and illustrations on p. 93: Infrared ektachrome film "offers considerable promise in high-altitude photography, as figures 17 and 18 clearly demonstrate. Both were taken with the 6-inch focal-length oblique camera on the X-15-2, the black and white (fig. 17) in October 1962 and the color (fig. 18) in June 1965. Las Vegas is in the foreground with McCarran Field and Nellis Air Force Base visible. The bright red areas (in the color projection) around Las Vegas are golf courses and irigated fields. Beyond Las Vegas is Lake Mead [*sic*] and Lake Mojave [*sic*], the latter barely visible in the black and white (fig. 17). Also on the black and white to the southewast is the mouth of the Grand Canyon and beyond that Mount Humphrey [*sic*] just north of Flagstaff, Arizona. On the ektachrome (fig. 18) to the south are irrigated fields near Needles, California, and more vegetation along the lower Colorado River until finally just below the horizon is the Gulf of California and the Colorado River delta."]

2024 18.2604 A message from Ed. *Canyon Views* (Grand Canyon Conservancy), 31(1) (Summer): 2-3. [The author is the Superintendent of Grand Canyon National Park. Remarks introducing this issue, which focuses environmental research, stewardship and outreach, including Native American relations. Includes (p. 2): "Some GRCA staff joined me on a nine-day river mission with senior staff from the Bureau of Reclamation and scientists from the U.S. Geological Survey and the U.S. Fish and Wildlife Service. Reclamation is engaged in a series of related planning processes for managing water in the Colorado River basin. Our river mission gave park staff and scientists a tremendous opportunity to educate Reclamation staff on climate change impacts in the Grand Canyon."] [See also Shalla (2024, ITEM NO. 18.2605).]

Cover includes logos of Fundusze Europejskie, Państwowe Gospodarstwo Wodne Wody Polskie, and Unia Europejska Fundusz Spójności. "Projekt: Opracowanie II aktualizacji planów gospodarowania wodami na obszarach dorzeczy wraz z dokumentami planistycznymi stanowiącymi podstawę do ich opracowania; Nr Projektu: POIS.02.01.00-00-0016/16".] [See p. 136, under "D7 - Modyfikacje zarządzania wodą, w celu eliminacji antropogenicznych zniekształceń przepływu": "W Stanach Zjednoczonych rzeka Colorado, powyżej Wielkiego Kanionu, w 1963 r. przegrodzona została zaporą Glen Canyon, co spowodowało poważne problemy geomorfologiczne i ekologiczne (zanik odsypów piaszczystych w kanionie z powodu zatrzymania rumowiska na tamie; negatywny wpływ na ichtiofaunę). Dla zapobiegania tym zagrożeniom, od lat 90. XX w. przeprowadzane są „kontrolowane powodzie", z dokładnym monitoringiem ich skutków i adaptatywnym zarzadzaniem ich natężeniem i częstotliwością (Patten i in. 2001, Cook 2013)." (In the United States, the Colorado River, above the Grand Canyon, was blocked by the Glen Canyon Dam in 1963, which caused serious geomorphological and ecological problems (disappearance of sand deposits in the canyon due to sediment retention behind the dam; negative impact on ichthyofauna). To prevent these threats, "controlled floods" have been carried out since the 1990s, with careful monitoring of their effects and adaptive management of their intensity and frequency (Patten et al. 2001, Cook 2013).] [In Polish.]

Vaughn, Kelly

2025	18.2641	Red sky at night, photographer's delight. On May 7, 2024, NASA detected signs of a solar superstorm in the Northern Hemisphere. Three days later, the skies lit up over Arizona, giving photographers what they thought might be a once-in-a-lifetime opportunity. But there would be another. On October 10, the northern lights returned, and what an encore it was. An essay by Kelly Vaughn. *Arizona Highways*, 101(1) (January): 40-45. [Illustrated with three photographs, by Rich Rudow, Adam Schallau, and Jonathan Buford.] [Aurora Borealis.] [*NOTE*: The NASA "detection" is misworded; the occurrence at that time was an eruption on the sun, particles from which reached the earth three days later.]

THE GRAND CANON

A WORLDWIDE BIBLIOGRAPHY OF THE GRAND CANYON AND LOWER COLORADO RIVER REGIONS
IN THE UNITED STATES AND MEXICO

19

BIOLOGY AND ECOLOGY OF THE GRAND CANYON REGION

Publications on organismal biology, ecology, and modeling and research applications relating to biological communities in the Grand Canyon ecoregion, including the Colorado River corridor through the Grand Canyon; and general items relating to organismal resources in the region

GO TO VOLUME CONTENTS PAGE
GO TO BIBLIOGRAPHY TABLE OF CONTENTS

PART 19. BIOLOGY AND ECOLOGY OF THE GRAND CANYON REGION

OVERVIEW. This part includes documents on biological censuses and the biology and ecology of animal, plant, and protist organisms as occurring in the Grand Canyon region, including the Colorado River below Glen Canyon Dam; and that part of Lake Mead that encroaches into western Grand Canyon. This part also includes biological reports and studies that have been part of scientific investigations conducted for the purpose of environmental management of public lands in the Grand Canyon region. Also included here are general articles about information on organisms, resources and activities; for example, fishing, hunting, and conservation. Documents that are **Environmental Impact Statements**, and similar administrative and guidance documents, are mostly included in PART 13 (ADMINISTRATIVE AND MANAGEMENT ISSUES) because they usually embrace multiple areas of administrative oversight, are not solely focused on ecological concerns as might be inferred from the title, and may offer a variety of management alternatives. Exceptions are those documents that are specifically or predominantly biological or ecological in perspective. Documents pertaining to the experiences of field work in this region are included in this part (Part 19).

RELATED MATERIAL

PART 3. *THE NEW YORK TIMES* for additional items that relate to this part of the bibliography (which are not repeated in this part)

PART 6. YOUTH for pertinent items that relate to this part of the bibliography

PART 11, SECTION 1 for items pertaining to natural history in the lower Colorado River corridor in Lake Mead and downstream

PART 15. HEALTH AND SAFETY for items that relate to human health concerns of biogenic and environmental origin, and the Appendix to Part 15 for maps of wildland fire dispatch zones

NOTES FOR PART 19

THIS section of the bibliography contains a great deal of taxonomic nomenclature of biological organisms; the so-called binomial and trinomial nomenclature of genera and species (*Genus species*; *Genus species subspecies*; *Genus species* var. *variety*, in italics) and capitalized proper names of higher taxonomic groups (like phyla, classes, and families, not italicized). Although a citation will be exactly as printed, in notes that may follow it I have taken the opportunity to clarify some of the nomenclatural conventions that may not be intuitive to those who do not practice in these fields. I have indicated as best as I have been able the newly introduced taxa in a publication that come from localities within the geographic embrace of this bibliography. To disambiguate variant usages, in the notes that I append to some citations I use spelled-out phrases to bring attention to these new taxa. For example, “new species” is used instead of the nomenclaturally more conventional “n. sp.”, “nov. sp.”, “sp. n.” or “sp. nov.” (which in any case are synonymous terms); likewise for “new genus”, “new subgenus”, “new subspecies”, “new variety”, “new combination”, “new status”, “new name”, or any similar usage with a taxonomic name. In this fashion, too, one may find in this bibliography all such cited occurrences simply by searching for the spelled-out “new species” (etc.). The conventional forms do also appear when they are a part of a title or a quotation.

Ornithological style conventions call for the accepted common names of birds to be capitalized; for example, the Southwestern Willow Flycatcher and the Yuma Clapper Rail. Such usage is meant to convey the idea that the bird in question is one with a single, established taxonomic (scientific) name. This convention is not followed in this bibliography, in so far as no other animal or plant species is conformably capitalized by practitioners in those fields, and to accordingly single out birds is awkward. Only in the case of direct quotations (within quotation marks) are bird common names shown herein with capital letters.

In quoted texts, ♂ and ♀ indicate specimens that are male and female, respectively.

The Colorado River Ecosystem v. State of Colorado

Special note is made here of a series of papers that pertain to the novel 2017 legal case, *The Colorado River Ecosystem v. State of Colorado*. Though it was soon voluntarily terminated by the plaintiffs, it was to establish the legal right of envioronmentally defined "personhood" for the Colorado River (in Colorado specifically, but with implied pertinence to the remainder of the Colorado River). The citations are cited throughout Part 13 herein (and one item from *The New York Times*, Part 3 herein), but are grouped below for their informational value as it applies to the subjects of Part 19.

U.S. District Court, District of Colorado

2017	13.5414	*Colorado River Ecosystem, The v. State of Colorado (1:17-cv-02316).* U.S. District Court, District of Colorado. [This is the novel complaint filed by Denver-based attorney Jason Flores-Williams on behalf of the Colorado River, which sought personhood, through the rights-of-nature doctrine, for the Colorado River. It would have been the first such case in the U.S. Amended complaints were filed, which included additional plaintiffs. While the filing was for the Colorado River in the Upper Basin, it had implied application to the entire river, and thus should be at least noticed in this bibliography. Certain discussions from the literature are also cited herein, and are cross-referenced to this case before the Court. The case eventually was terminated later in 2017 based on the plaintiffs' own voluntary motion to dismiss the case. A complete summary of events is available online at https://www.courtlistener.com/docket/6158241/colorado-river-ecosystem-the-v-state-of-colorado/. A complete list of plaintiffs and defendants is also available at https://www.courtlistener.com/docket/6158241/parties/colorado-river-ecosystem-the-v-state-of-colorado/.]

Clark, Cristy; Emmanouil, Nia; Page, John; AND Pelizzon, Alesandro

2018	13.5415	Can you hear the rivers sing? Legal personhood, ontology, and the nitty-gritty of governance. *Ecology Law Quarterly*, 45: 787-844. [Regarding the proposed Colorado River "personhood" case, see section "V. Colorado River, United States" (pp. 818-823).]

Danieu, Eamon

2022	13.5416	Release the river: Recognizing legal rights for natural objects to remedy continuing issues in American environmental law. *Buffalo Law Review*, 70(5) (December): 1927-1972. [Regarding the proposed Colorado River "personhood" case, see pp. 1944-1946.]

Krömer, Michaela; Wagner, Erika; Bergthaler, Wilhelm; AND Grabmair, Lukas

NO DATE	13.5417	*Eigenrechts Fähigkeit der Natur.* Linz: Johannes Kepler Universität Linz, Instituts für Umweltrecht, 140 pp. [Regarding the proposed Colorado River "personhood" case, see p. 25.] [In German.]

Mandler, Michelle

2022 13.5418 Nature deserves rights, too: the case for a "rights of nature" constitutional amendment. *Journal of Civil Rights and Economic Development*, 35: 111-148. [Regarding the proposed Colorado River "personhood" case, see "The United Staes: No Federal or State Rights of Nature, and the Colorado River Ecosystem" (pp. 142-143).]

McClelland, Roanna

2023 13.5419 Rights of rivers in a changing climate. *Climate Law*, 13: 237-250. [Regarding the proposed Colorado River "personhood" case, see p. 243.]

McDonough, Caroline

2019 13.5420 Will the river ever get a chance to speak? Standing up for the legal rights of nature. *Villanova Environmental Law Journal*, 31(1): 143-164. [Regarding the proposed Colorado River "personhood" case, see pp. 145-147.]

Miller, Matthew

2019 13.5421 Environmental personhood and standing for nature: Examining the Colorado River case. *University of New Hampshire Law Review*, 17(2): 355-377.

Ochoa, Christiana

2021 13.5422 Nature's rights. *Michigan Journal of Environmental and Administrative Law*, 11(1): 39-86. [Regarding the proposed Colorado River "personhood" case, see p. 82.]

Pain, Nicola, AND Pepper, Rachel

2021 13.5423 Can personhood protect the environment? Affording legal rights to nature. *Fordham International Law Journal*, 45(2): 315-377. [Regarding the proposed Colorado River "personhood" case, see pp. 366-367.]

Ruru, Jacinta

2018 13.5424 First laws: Tikanga Māori in/and the law. *Victoria University of Wellington Law Review* (New Zealand), 49: 211-228. [Regarding the proposed Colorado River "personhood" case, see p. 224.]

Szigeti, Péter

2021 13.5425 A sketch of ecological property. *Environmental Law*, 51(1): 41-87. [Regarding the proposed Colorado River "personhood" case, see pp. 57, 85.]

Takacs, David

2021 13.5426 We are the river. *University of Illinois Law Review*, 2021(2): 545-605. [Regarding the proposed Colorado River "personhood" case, see pp. 599-600.]

Turkewitz, Julie

2017 3.1974 Plaintiff in federal lawsuit over a violation of rights is the Colorado River. *The New York Times*, (September 26): A14. .]

Warner, Elizabeth Kronk, AND Lillquist, Jensen

2023 13.5427 Laboratories of the future: Tribes and rights of nature. *California Law Review*, 111: 325-393. [Regarding the proposed Colorado River "personhood" case, see pp. 354, 361.]

White, Hannah

2018 13.5428 Indigenous peoples, the international trend toward legal personhood for nature, and the United States. *American Indian Law Review*, 43(1): 129-165. [Regarding the proposed Colorado River "personhood" case, see p. 131, and "The Colorado River" (pp. 158-165).]

Zentmeyer, Brooke

2022 13.5429 Towards a Loraxian praxis: Lessons from legal history, Lake Erie, and *The Lorax*. *Ohio State Law Journal Online*, 83:1-16. [Regarding the proposed Colorado River "personhood" case, see pp. 6-7).]

1905	19.4093	[Game preserve.] *Shooting and Fishing*, 38(23) (September 14): 445. ["It is understood that the Utah and Arizona representatives in Congress have agreed to join in placing before the next session a bill making a game preserve on the region lying

Anonymous (*continued*)

between the southern Utah line and the Grand Canon of Arizona, an area of about 2000 square miles. It is intended that the Government shall stock the ground with buffalo and rare animals and shall fence it in. Only a few years ago the district proposed to be stocked was full of deer and antelope, which have been almost entirely destroyed by Ute Indians from Colorado, who slaughtered the game wontonly and unnecessarily." (ENTIRE ITEM)]

1905 19.3530 Kanab [NEWS]. To perpetuate the buffalo. Buffalo Jones on way to Grand Canyon with herd. *Deseret News*, (October 26): 9 [issue pagination].

1906 19.3531 Fredonia, Arizona [NEWS]. *Deseret News*, (January 19): 9 [issue pagination]. ["Col. Jones has his buffalo and cattalo 40 miles southeast from here. The country is turning into a primitive west. While the last drove of animals were being driven from Lund, one large buffalo bull was lost on the prairie near Rockville. No particular danger from stampede is anticipated, but it make take a Buffalo Bill to 'round' him in. Tourists will soon be able to find a veritable 'Wild West Show' in the Buckskin mountains [Kaibab Plateau]." (ENTIRE NOTE) (Buffalo Jones.) (See also Anonymous, 1906, ITEM NO. 19.3532.)]

1906 19.3532 Fredonia, Arizona [NEWS]. Only 20,000 sheep will enter reserve—Buffalo bull again at large [and other news]. *Deseret News*, (February 28): 11 [issue pagination]. ["Supervisor Pratt of the Northern Division of the Grand canyon reserve is in possession of information that corrects a statement made in the 'News' some time ago to the effect that 30,000 sheep would be allowed to graze on the reserve. Twenty thousand is the maximum that will be allowed and these are limited to what is designated as district No. 3, a portion of the country that is suitable principally for winter range. [¶] The buffalo bull lost on the desert near here has been found and coaxed into a corral. But the animal seems to ignore such contrivances, so he simply smashed the posts and gained his freedom. He may get tender hearted when spring opens and let the boys round him in again." (ENTIRE NOTES)]

1906 19.3533 Fredonia, Arizona [NEWS]. *Deseret News*, (July 10): 9 [issue pagination]. ["The Buffalo and Catalo and Persian sheep are located on Bright Angel point where they are within reach of the telescopes of tourists sitting at the big hotel on the side where the railroad comes to the brink." (ENTIRE NOTE)]

1906 19.3534 Toquerville [NEWS]. *Deseret News*, (September 4): 3 [issue pagination]. ["A herd of buffalo and cattalo (the latter is a hybrid of the buffalo and the galloway cow), has been brought to Camp Woolley. The company owning them is capitalized at $100,000. Buffalo Jones, former game warden at the Yellowstone National park, is an active member. Beside the buffalo, Persion sheep have been secured by the company. Deer in herds are to be seen in the pines and quaking asps. A movement is on foot to make the Buckskin mountains [Kaibab Plateau] of this section a national game preserve." (ENTIRE NOTE)]

1906 19.5 [Untitled note.] *The Nautilus* (Philadelphia), 20(7) (November): 84. ["The Senior Editor of The Nautilus, in company with Mr. Jas. H. Ferriss, is on a collecting trip in Arizona. He expects to be absent about six weeks." (ENTIRE NOTE) This was Henry A. Pilsbry and James H. Ferriss's trip that included the Grand Canyon region (see Pilsbry and Ferriss, 1911, ITEM NO. 19.1336).] [Malacology.]

Anonymous (*continued*)

1907 19.3535 Mountain lion captured. *Deseret News*, (July 19): 2 [issue pagination]. [“Buffalo Jones passed through Provo today with a mountain lion captured at Angel Creek in southern Utah [*sic*], about 15 miles from the point where the cable is being stretched across the Colorado. Two lions and cub were lassoed by the party, but the one Mr. Jones has and the cub are all that were finally secured. The other lion came so near getting away, while the capturing party were trying to secure him with chains, that it was found necessary to kill him or lose him, and he was killed. Mr. Jones will take the lions with him to use in the east as illustrations in a lecture on the Wild West.” (ENTIRE ITEM)] [See also note in July 26 issue (Anonymous, 1907, ITEM NO. 19.3536).]

1907 19.3536 “Buffalo” Jones here. Man who knows all about animals comes to town on visit. *Deseret News*, (July 26): 10 [issue pagination]. [Buffalo Jones brings with him two mountain lions caught (refer to Anonymous, 1907, ITEM NO. 19.3535).]

1907 19.4816 Third Summer Meeting; Wareham and Lytchett Heath. *In:* The Proceedings of the Dorset Natural History and Antiquarian Field Club During the Season 1906-1907 [SECTION]. *Dorset Natural History and Antiquarian Field Club, Proceedings*, 28: lxvii-lxxviii. [See p. lxxiv: On viewing Mariposa lilies during a field trip to Lytchett Heath, the “guide told them that when she was with her husband in the Grand Canon they rode through them as one would ride through fields of buttercups.” (ENTIRE NOTE)]

1908 19.3537 Kanab [NEWS]. *Deseret News*, (March 3): 3 [issue pagination]. [“A great many of the cattlemen of Kane county are contemplating going on to the forest reserve on the Buckskin mountain [Kaibab Plateau], and some of them have already put in their applications on the strength of the prospects of the government’s building a fence across the north end of the reserve, so that the cattle can be kept on the mountains.” (ENTIRE NOTE)]

1909 19.3477 A great year for game preserves. *Zoological Society Bulletin* (New York Zoological Society), (34) (June): 497-503. [See “The Grand Canon National Game Preserve”, pp. 502-503.]

1909 19.6 [Untitled note.] *The Nautilus* (Philadelphia), 23(6) (November): 84. [Entire note reads: “Messrs. Ferriss and Daniels are exploring the Kaibab and Kanab plateaus for shells and ferns. In this little-known country north of the Grand Canyon of the Colorado, they report beautiful scenery, a superb climate, and plenty of shells.”] [See Pilsbry and Ferriss, 1911, ITEM NO. 19.1336; and for a related article see also Ferriss, 1910, ITEM NO. 19.600. Also see historical articles relating to the Pilsbry-Ferriss trip by Spamer, 2015, ITEM NO. 2.22222; and the Ferriss-Daniels trip by Orr, 1910, ITEM NO. 2.7280, and Spamer, 2016, ITEM NO. 2.24105.]

≡ CROSS-LISTINGS |CITED» GCNHA Monograph 8: page 4-31|

1913 19.5136 [Note.] *In:* [Meeting of] February 2nd, 1911; entomological program. *Hawaiian Entomological Society, Proceedings*, 2 [for 1911-1912] (5) (July): 191. [“Mr. Swezey exhibited a collection of insects taken at the Grand Canyon, Arizona, while on a visit to that place.” (ENTIRE NOTE)]

1913 19.6450 Utah’s theoretical forests. *Railway and Marine News* (Seattle, Washington), 11(12) (August 1): 15. [“. . . outside of the Panguitch pine forests, and some of the timbered section bordering on the Grand Canyon of the Colorado, and Kaibab Plateau, there is probably no marketable timber procurable in the whole state of Utah.”]

[See p. 310: Minutes record a presentation by Dr. Ottolengui to the West, noting the abundance of "blue aster-like flowers at Grand Canyon". (ENTIRE NOTE)]
1916	19.4052	Potato crop brings goodly wealth to Michigan growers. *Pere Marquette Service* (Pere Marquette Railroad, Detroit), 2(7) (December): 6-7. [See p. 7, "Origin of the Potato Bug": "The late C. C. James, of Canada, who was as highly regarded in scientific agriculture in Canada as Uncle James Wilson in the United States, held to a novel theory as to the origin of the potato bug. [¶] This pest, according to Prof. James, was none other than the Colorado beetle, which is indigenous to the Grand Canon of the Colorado. It first reached the Detroit river in 1877, and his belief was that it had traced the footsteps of the Forty-Niners eastward. It is a known fact that potatoes can be reproduced from the peel providing that there is an eye in it. Now, Mr. James, held that the Forty-Niners in their march across the continent had left a trace of these, which the Colorado beetle followed. It took them from 1849 to 1877 to reach Michigan." (ENTIRE NOTE) Surely a confused rendition.]
1917	19.3668	A wonderful specimen of a petrified bird's nest. *Popular Science Monthly*, 90(1) (January): 188. [Found "imbedded in a rock formation in a cliff of the Grand Canyon, five hundred feet above the base". Surely a travertine-enrobed artifact.] [See also Anonymous (1921, ITEM NO. 19.4567) and Strong (1918, ITEM NO. 19.3662).]
1917	19.6125	Proceedings of the Brooklyn Entomological Society. *Brooklyn Entomological Society, Bulletin*, 12(2) (April): 45-47. [See "Meeting of November 16" (p. 46), which notes: "The scientific programme was Mr. G. P. Englehardt's account of his visit to the Grand Canyon of Arizona, between June 6 and 10. After an illuminating description of the natural features he noted as interesting captures in the canyon of *Cicindela arizonæ*, rather common along a small stream on the Bright Angel trail; *Zopherus gracilis, Hetærina vulnerata*, abundant in Indian Garden, as well as *Notonecta mexicana*; *Memythrus cupressi* was found on willow, in the same place, and the larvæ of *Megathymus* sp. was found boring in agave. *Sphinx coloradus* came to light at the top of the Canyon." (ENTIRE NOTE)]
1917	19.3802	Crossing the buffalo with beef cattle. *Popular Mechanics Magazine*, 28(6) (December): 884. [Notes the largest herd of catalo "is located on the isolated, uninhabited 'Arizona strip,' north of the Grand Cañon."] [House Rock Valley.]
1918	19.3697	[Note on a legal case pertaining to wild horses in New Mexico and southern Colorado.] *In:* Along the Trail [SECTION]. *Santa Fe Magazine*, 12(9) (August): 70. [Includes note, "A tale, vouched for at El Tovar Hotel, is that there are 1,000 burros more or less running wild in the Grand Cañon of Arizona—descendants of their kind left there by Coronado's band in 1542." (ENTIRE NOTE)]

Anonymous (*continued*)

1918	19.4117	List of accessions to the collections during the fiscal year 1916-1917. *In: Report on the progress and condition of the United States National Museum for the year ending June 30, 1917.* Washington, D.C.: U.S. Government Printing Office, pp. 99-142. [See p. 99: ". . . 33 mollusks collected at the base of 'Gray Sandstone' on Bright Angel Trail, Grand Canyon, Ariz., by Mr. E. A. Goldman (60307); 5 land shells from Grand Canyon and 20 specimens of plants from Arizona, collected by Mr. Goldman (61095) . . . ."]
1919	19.6217	[Establishment of Grand Canyon National Park.] *In:* Notes and News [SECTION]. *The Auk*, 36(2) (April): 319-324. [Brief note of the establishment of Grand Canyon and Lafayette National Parks. "This action will insure greater protection of the wild life and we hope will result in the publication at an early date of information concerning the birds of these interesting regions." (ENTIRE NOTE)]
1921	19.3228	Deer in Grand Cañon saved from extinction. *Popular Mechanics Magazine*, 35(1) (January): 83.
1921	19.3489	[Brief notice by Jesse Nusbaum of deer and geese on Kaibab Plateau.] *In:* Along the Trail [SECTION]. *Santa Fe Magazine*, 15(4) (March): 66.
1921	19.4567	Petrified bird's nest. *American Forestry*, 27 (March): 172. [Found "in the Grand Canyon of the Colorado, in Arizona, 550 feet from the base of the canyon. It was imbedded in a rock formation in a sort of cliff." Surely a travertine-enrobed artifact.] [See also Anonymous (1917, ITEM NO. 19.3668) and Strong (1918, ITEM NO. 19.3662).]
1921	19.3227	Grand Cañon National Park to attract trout anglers. *Popular Mechanics Magazine*, 35(6) (June): 849. [Bright Angel Creek.]
1922	19.4084	Undeveloped timber section of Arizona; over one billion feet contained in the 300,000-acre area. *The Timberman* (Portland, Oregon), 23(5) (March): 114, 117. [Kaibab Plateau.]
1922	19.4817	Side lights of the California meeting of the National Dental Association. *In:* Orthodontic News and Notes [SECTION]. *International Journal of Orthodontia, Oral Surgery and Radiography*, 8(8) (August): 534-. [See p. 535: "To the tired orthodontist who has made the long jaunt to California in search of both youth and knowledge there are only two things which remain a mystery in his mind. First those little animals, which they tell you about which make their residence in the bottom of the Grand Canyon and when you are bitten by them will not release their hold until it thunders . . . ." (ENTIRE NOTE)] [*NOTE*: Traditional folklore from numerous places suggest that certain animals will not release a bite-hold until it thunders (and/or other external influences); included among them are various lizards including the Gila monster.]
1922	19.3734	Barkbeetles menace to Grand Canyon forests. *Lumber* (Chicago), 70 (October 20): 44. [Grand Canyon National Park and Kaibab National Forest.] [Bark beetles.]
1924	19.3494	Estimate made of big game animals on national forests. *California Fish and Game*, 10(1) (January): 36-38. [Kaibab Plateau game conditions noted, pp. 37, 37-38.]

1937 19.4122 20-day deer season in Kaibab opens Oct. 27. *Desert Magazine*, 1(1) (November): 36. [Deer hunting season, Kaibab Plateau.]

1938 19.4123 Grand Canyon. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 1(5) (March): 20. ["Shrubs are budding in the Grand Canyon National Park as a result of unusually mild winter weather." (ENTIRE NOTE)]

1938 19.4124 Cameron. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 1(5) (March): 20. ["Twelve Arizona hunters, 10 men and two women, were permitted to shoot one buffalo each from the state protected herd in House Rock canyon [House Rock Valley] on January 22. The names of the hunters were drawn by lot from 371 applicants. Each hunter was permitted to retain one quarter of the meat, the head and the hide. The state reserved the right to sell the remainder of the meat." (ENTIRE ITEM)]

1940 19.4125 Flagstaff. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 3(3) (January): 34. ["When George Andrakos, hotel employe at Grand Canyon, shot a coyote he was arrested, now faces trial in federal court at Prescott. Andrakos' target was semi-tame, had thrilled many tourists by practically eating out of their hands. In fact the coyote was so tame he sat often by the roadside waiting for motorists to stop and offer candy or cookies. Park Service regulations prohibit killing any wildlife in a national park." (ENTIRE ITEM)]

1940 19.3103 Arizona hunters shoot 55 buffalo to decrease size of state's herd. *Life*, 8(6) (February 5): 22-23. [House Rock Valley.]

1940 19.4126 Flagstaff. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 3(5) (March): 28. ["Twenty-three men and women made their kills in January in the first

Anonymous (*continued*)

		of two state-supervised buffalo hunts in remote Houserock Valley of northeastern Arizona. Another group of 25 hunters formed second expedition for trophies third week in February. Women in the first hunt were Mrs. Amy Wagner, Phoenix, and Mrs. Hazel Wittkop, Tucson." (ENTIRE ITEM)] [House Rock Valley.]

1950 19.4142 Wild turkeys are planted. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 13(5) (March): 32. ["Kingman—Wild turkeys are being live-trapped by the Arizona game and fish commission in a number of areas where surpluses exist to restock Ft. Huachuca, the Santa Rita mountains and the North Kaibab National forest. Ft. Huachucha and the Santa Ritas once carried good populations of wild turkeys, but no evidence has been found to indicate that turkeys ever ranged the North Kaibab area. Surveys by rangers lead officials to believe that turkeys will do well there, however.—*Mohave County Miner*." (ENTIRE ITEM)]

1950 19.4143 Buffalo range controversy. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 13(8) (June): 31. ["Flagstaff—Seeking an end to a controversy that has continued since 1926, Thomas F. Kimball, state game commissioner, has suggested to Senator Ernest McFarland that a bill be introduced in congress giving the state title to 28,760 acres in Houserock Valley for a buffalo range. The controversy has existed since the Arizona Game and Fish Commission in 1926 bought a herd of about 80 buffalo which had been driven into Houserock Valley. At present cattle share the range. It is being over-grazed. In 1930 a tract of 44,000 acres was withdrawn by executive order of President Hoover, but wording of this order was not specific enough to avoid later controversy.—*Coconino Sun*." (ENTIRE ITEM)] [House Rock Valley.]

1950 19.4144 Houserock buffalo being moved. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 13(10) (August): 35. ["Phoenix—Arizona's buffalo, now located in Houserock Valley, are to be moved to avoid starvation, the state game and fish commission has announced. Half of the 125 animals are to go to the buffalo refuge on Anderson mesa. To find a permanent home for the last remaining Arizona buffalo, the commission siad it is waiving all rights to Houserock Valley in return for approximately 100,000 acres of range in the Kaibab National Forest.—*Coconino Sun*." (ENTIRE ITEM)] [House Rock Valley.]

Anonymous (*continued*)

1952	19.4153	Game surveys completed. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 15(6) (June): 31. [“Grand Canyon—’Knowledge of deer populations and trends is essential to proper deer range management,’ explained J. J. Baldwin, district forest ranger for Kaibab National Forest when he released the figures obtained in the April range survey. ‘Through a study of condition and trend of the herd and a study of available forage, it is possible to estimate and recommend the number that should be removed annually in hunting.’ The survey will be evaluated by the Arizona Game Commission before hunt proposals are made.—*Kane County Standard*.” (ENTIRE ITEM)]
1952	19.4154	Cattle in Kaibab. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 15(7) (July): 29. [“Grand Canyon—The United States Forest Service has decided to give cattle a permanent place on the Kaibab National Game Refuge, which was set aside by President Theodore Roosevelt in 1906 for the famou Kaibab deer herd. The action was taken because cattlemen agreed to reduce livestock use 38 percent through fall calf sales that wuld remove the annual increase. It is expected the admission of cattle to range lands will necessitate a larger deer hunt this fall.—*Arizona Republic*.” (ENTIRE ITEM)]
1952	19.4155	Biggest Kaibab hunt. *In:* Here and There on the Desert [SECTION]. *Desert Magazine*, 15(11) (November): 29. [“Grand Canyon—The entire Grand Canyon National Game Preserve will be open during parts of October and November for the biggest Kaibab North deer hunt in history. The first section hunt was scheduled October 10 through 19; the second will begin October 24 and continue through November 9. Seven thousand hunters were expected to participate.—*Chandler Arizonan*.” (ENTIRE ITEM)]
1957	19.4814	Mule deer in the Kaibab. *Westways*, (November):.
1958	19.3072	Early history of the North Kaibab. *Arizona Game Protective Association, Outdoor News*, (July):.
1959	19.4335	Bears on canyon rim. *Desert Magazine*, 22(12) (December): 35. [“For the first time in many years, wild black bears have been seen on the South Rim of Grand Canyon. Reports indicate that the bears are two or three years old and weigh from 150 to 200 pounds. Potentially dangerous to overly-curious tourists, the bears so far have done no worse than knock over a few garbage cans. Most of the bruins were spotted in Grandview, a ehavily wooded area 10 miles east of Park headquarters.” (ENTIRE ITEM)]

[No place]: Arizona State University Art Museum, [unpaginated]. [Photographic-exhibit guide and educational resource.] ["Over a two-year period, artists Bryndia Snæbjöornsdóttir (Iceland) and Mark Wilson (UK) have explored the networks and ripple effects of scientific conservation initiatives in Arizona. [. . .] Taking a kind of vertical slice of the Grand Canyon, they have focused on the reintroduction of two endangered species to the environment—the Humpback Chub, native to the Colorado

River, and the California Condor, whose zones of flight extend from the Canyon to the Vermilion Cliffs and into Utah. This exhibition examines how ecologies can change radically as a result of tiny individual initiatives by human or other agents.”]

Arment, Chad, AND Sucik, Nick

2002 19.2910 Dwarf horses of the Grand Canyon. *North American BioFortean Review*, 4(2) (9) (December): [78-80]. [Havasupai “pygmy” or “miniature” horses.]

Armer, Laura Adams

1960 19.4390 Tony the pony. *Desert Magazine*, 23(8) (August): 12-13. [This “is the fifth in a series of articles by Mrs. Armer telling of her experiences in the land of the Navajos. This episode occurred in 1925.” Includes photo (p. 12) with legend that repeats text from p. 13): “He [Mr. Armer] had been in Grand Canyon at the time certain very small ponies were found there. He photographed the finder and the ponies on the north bank of the canyon.” Photograph depicts man with pony wrapped around his shoulders, standing on edge of North Rim. Article does not discuss further.] [Miniature horses, so-called.] [See also C. Pepper (1967, ITEM NO. 19.4391).]

2004 19.2507 Water film fauna of micromiotic crusts of a warm desert. *Journal of Arid Environments*, 56(3) (February): 413-423. [Abstract: "Twenty-eight microbiotic crusts containing cyanobacteria, lichens and bryophytes, collected from desert soils of the Grand Canyon in northern Arizona, between Lees Ferry and Whitmore Wash in May 2000, were examined for water film fauna. Fifty-one species of ciliates, 28 of amoebae, 17 of testacea, four metazoan taxa, and a number of flagellate morphotypes were found. In the non-flagellated protozoan groups, r-selected bactivores, responding rapidly to wetting, quickly exploiting resources, and possessing efficient encysting abilities, predominated. The few nematodes were principally stylet-bearing tylenchids, feeding on fungal hyphae and moss rhizoids."]

2020 19.6519 *Monograph of Orbiliomycetes (Ascomycota) based on vital taxonomy.* Luxembourg: National Museum of Natural History Luxembourg, Parts I and II, pp. 1-952, 953-1752. [This is a profusely documented and illustrated publication, chiefly comprising the descriptions of new species (date of publication 30 October 2020). This citation lists those taxa that are typified or for which descriptions are based on collections from the Grand Canyon region; numerous other localities are omitted in this summary citation. Only page numbers are given; pertinent enumerated plates of illustrations are embedded on those same pages. Locality data are given here only in condensed format, documenting just the geographic locale, although each published description includes collection information such as altitude, host material, collector, date of collection, and repository and catalog number of the material. Some descriptions also note material that is "not included"; these specimens "deviate from the established taxa only in some minor points . . . [though] mentioned under that taxon which appears to be most closely related, but they are not included in a description, nor are they proposed as a separate new species." (p. 17) The "not-included" materials, although taxonomically not precisely identified, are mentioned here because they document collections from the region that this bibliography covers. (Future researchers, of course, may indeed consider some such material to belong to the species under which Baral *et al.* have listed it.) For greater convenience in distinguishing Grand Canyon regional material that is, or is not, directly pertinent to a new species described by the authors, in the information that follows "**new species**" is indicated in **bold** if the regional cited material is systematically identified as that species; but as "new species" (not bold) if it is a new species in Baral *et al.* but for which collections from the region are *only* noted to be "not included" (that is, they are mentioned for their geographic information and not as any taxonomic support for the newly described species, thus resource managers are alerted to the fact that there is material gathered from this geographical region but that it is not necessarily considered by these authors to represent the species under which it is listed). (For an example of these two methods of indication, see nos. [1] and [2] in the lists that follow in this citation. See no. [7] for an example that lists *only* type material from the Grand Canyon region; that is, none of the separately included or not-included materials listed by Baral *et al.* are from the region. See no. [20] for an example that lists, for a single new species, all three kinds of material: type, included, and not-included material, all from the Grand Canyon region.) Lists of included and not-included materials in the publication are often lengthy, with material sometimes from nation- and world-wide localities. Also note that the new taxa are credited to specific authors, not to the authors of the volume as a whole, but only the credited authors are listed in this citation even though the precise format is lengthier; for example, the first-listed species that follows is taxonomically more precise as "*Orbilia purshiae* Baral & G. Marson *in* Baral, Weber, and G. Marson". • Taxa are enumerated here for convenience and to set them off from each other on the printed page (all localities are specifically noted by Baral *et al.* as being in Arizona, although some locality references to "Grand Canyon" are actually neither within the physiographic canyon nor within the national park, but on adjacent national forest and other lands): [1] *Orbilia purshiae* Baral & G. Marson, **new species** (pp. 466-468), holotype from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake"; included material from "93 km SSE of Fredonia, S of North Rim", "Coconino Plateau, 7.5 km ESE of Grand Canyon Village, close to South Rim". [2] *Orbilia lentiformis* Baral & G. Marson, new species (pp. 470-476); not-included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake, Rte. 89". [3] *Orbilia ocellata* Baral, G. Marson & E. Weber, **new species** (pp. 476-481); included material from "Canyonlands, 45 km SW of Page, 26 km SW of Marble Canyon" and "Grand Canyon, Coconino Plateau, 3 km N of Tusayan". [4] *Orbilia cucumispora* Baral & G. Marson, **new species** (pp. 494-497), holotype and isotype from "Grand Canyon, Coconino Plateau, 3 km N of Tusayan"; included material from "Canyonlands, ~35 km WNW of Page, Paria Canyon". [5] *Orbilia magnifica* Baral & G. Marson, **new species** (pp. 509-511, holotpe and isotypes from "Grand Canyon, Kaibab Plateau, 37 km SE of Fredonia, S of Jacob Lake"; included material from "3 km N of Kaibab Lodge". [6] *Orbilia phanosoma* Baral & [G.] Marson, **new species** (pp. 514-515); included material from "Grand Canyon, Coconino Plateau, 3 km N of Tusayan" and "3 km S of Tusayan". [7] *Orbilia multiphanosoma* Baral & G. Marson, **new species** (pp. 515-517), holotype from "Grand Canyon, Coconino Plateau, 3 km N of Tusayan". [8] *Orbilia euonymi* Velen. (1934) (pp. 532-538); included material from "Grand Canyon, Kaibab Plateau, 93 km SSE of Fredonia, S of North Rim". [9] *Orbilia arizonensis* Baral & G. Marson, **new species** (pp. 553-556); included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake", "93 km SSE of Fredonia, S of North Rim", and "Coconino Plateau, 7.5 km ESE of Grand Canyon Village". [10] *Orbilia navajoana* Baral & G. Marson, **new species** (pp. 571-573); included material from "Grand Canyon, Coconino Plateau, 3.5 km N of Tusayan" and "3 km N of Tusayan". [11] *Orbilia clavuliformis* Baral & G. Marson, new species (pp. 680-686); not-included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake". [12] *Orbilia aristata* (Velen.) Velen. (1947) (pp. 709-719); included material from "Grand Canyon, 3 km N of Kaibab Lodge". [13] *Orbilia spermoides* Baral & G. Marson, **new species** (pp. 734-737), holotype from "Coconino Plateau, 3 km N of Tusayan"; included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake", "Coconino Plateau, 8.5 km NNE of Tusayan, Mather Point" and "3 km N of Tusayan". [14] *Orbilia carpoboloides* (P. & H. Crouan) Baral (1994) (pp. 1025-1040); not-included material from "Grand Canyon, Kaibab Plateau, 37 km SE of Fredonia, S of Jacob Lake". [15]

Orbilia ophiosoma Baral & G. Marson, **new species** (pp. 1050-1052); included material from "Grand Canyon, Coconino Plateau, 3.5 km N of Tusayan" and "3 km S of Tusayan". [16] *Orbilia multihamulata* Baral & G. Marson, **new species** (pp. 1054-1055), holotype and isotype from "Canyonlands, 35 km WNW of Page, Paria Canyon". [17] *Orbilia obtusispora* Baral & E. Weber, new species (pp. 1061-1065); not-included material from "Grand Canyon, Coconino Plateau, 2.3 km NW of Grand Canyon Village, Hopi Point". [18] *Orbilia maeandrina* Baral & G. Marson, **new species** (pp. 1075-1078); included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake", "93 km SSE of Fredonia, S of North Rim", "3 km N of Kaibab Lodge", "Coconino Plateau, 15 km ESE of Grand Canyon Village, Grandview Point", and "8.5 km ESE of Grand Canyon Village, close to South Rim". [19] *Orbilia multimaeandrina* Baral & G. Marson, **new species** (pp. 1078-1082); included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake". [20] *Orbilia flexisoma* Baral & G. Marson, **new species** (pp. 1095-1098), holotype from "Coconino Plateau, 3 km S of Tusayan); included material from "Grand Canyon, Kaibab Plateau, 93 km SSE of Fredonia, S of North Rim", "Coconino Plateau, 3.5 km N of Tusayan", and "3 km N of Tusayan"; not-included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake" and "Coconino Plateau, 7.5 km ESE of Grand Canyon Village". [21] *Orbilia delphinus* Baral & G. Marson, **new species** (pp. 1105-1110); included material from "Grand Canyon, Kaibab Plateau, 93 km SSE of Fredonia, S of North Rim", "Coconino Plateau, 15 km ESE of Grand Canyon Village, Grandview Point", and "3 km N of Tusayan". [22] *Orbilia macrodelphinus* Baral & G. Marson, **new species** (pp. 1113-1116); included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake" and "Coconino Plateau, 3.5 km N of Tusayan". [23] *Orbilia multitrapezoidea* Baral & G. Marson, **new species** (pp. 1117-1120), holotype from "Grand Canyon, Coconino Plateau, 3 km S of Tusayan". [24] *Orbilia serpentina* Pat. (1892) (pp. 1124-1129); included material from "Grand Canyon, Kaibab Plateau, 28 km ESE of Fredonia, 13 km NNW of Jacob Lake". [25] *Orbilia calyptrata* Baral & G. Marson, **new species** (pp. 1187-1189); included material from "Grand Canyon, Coconino Plateau, 3.5 km N of Tusayan" and "3 km S of Tusayan". [26] *Orbilia commarosa* Baral & G. Marson, new species (pp. 1195-1198); not-included material from "Grand Canyon, Coconino Plateau, 15 km ESE of Grand Canyon Village, Grandview Point". [27] *Orbilia barrowensis* Baral & G. Marson, new species (pp. 1198-1200); not-included material from "Canyonlands, 45 km SW of Page, 26 km SW of Marble Canyon". [28] *Orbilia gambelii* Baral & G. Marson *in* Karasch *et al.* (2005) (pp. 1200-1205); included material from "Grand Canyon, Kaibab Plateau, 93 km SSE of Fredonia, S of North Rim" and "Coconino Plateau, 3 km N of Tusayan". [29] *Orbilia subovoidea* Baral, Matočec & E. Weber, **new species** (pp. 1257-1260); included material from "Grand Canyon, Kaibab Plateau, 93 km SSE of Fredonia, S of North Rim".] [For a few taxa noted from the lower Colorado River region, see Baral *et al.* (2020, ITEM NO. 11.18112).]
